LUKOIL'S POWER AND HEAT SUPPLY FACILITIES OBTAIN WINTER PREPAREDNESS CERTIFICATES

All LUKOIL Group's power and heat supply organizations have obtained 2023-2024 winter preparedness certificates from the Ministry of Energy of the Russian Federation.

The Company's power facilities reach from Extreme North to the Southern federal district of Russia. Total installed capacity of generating facilities amounts to 12.4 GW, the length of power transmission grid and heat supply lines amounts to about 30 thousand kilometres. The Company implemented about 1500 measures under its winterization programmes.

Testifying compliance of LUKOIL's power and heat facilities with technical requirements, winter preparedness certificates prove them ready for seamless supply of power and heat to consumers this heating season.
