LUKOIL EXPANDS ITS FUEL STATIONS NETWORK IN KAZAKHSTAN

LUKOIL opened a flagship filling station in Kazakhstan, at the A3 motorway connecting the cities of Almaty and Oskemen. Just as the first LUKOIL-branded fuel station, which was opened in Kazakhstan this April, the new station will be operated under franchise.

The flagship fuel station offers the best services to its clients: they can buy LUKOIL's ECTO fuel, including premium ECTO 100 gasoline, visit a spacious shop with a café and a wide assortment of goods, take a shower, pray in a special zone, use a baby care room and an area for kids.

To make the visit more comfortable for drivers, the station has separate tracks for trucks and cars and 22 fuel columns.

The Company will continue developing its filling stations network in Kazakhstan.

Information:
LUKOIL has been operating in Kazakhstan since 1995, developing oil production and transport projects, manufacturing of lubricants, and generation of green energy.
