“The Southern Federal District is very promising for our company in terms of oil and gas production, including offshore production, and in terms of power engineering and hydrocarbon processing. Also helpful here are the favorable investment climate and the efficient terms of the private-public partnership”, OAO LUKOIL President Vagit Alekperov commented.

Beginning from 2014, the event in Astrakhan is the third time LUKOIL presents the performance indicators of its production and social activities in one of the districts where it operates.
