LUKOIL AND ONE OF THE WORLD'S PREMIUM CARS PRODUCERS STRENGTHEN GLOBAL PARTNERSHIP

LUKOIL Group and Daimler AG, one of the world's largest car manufacturers, expand their partnership in LUKOIL lubricants first fill supplies for engines of the brand's premium passenger cars in Europe and Eastern Asia.

LUKOIL expands the product range of engine oils delivered to the concern in Europe and China starting June 2021. The product range will broaden with low viscosity LUKOIL GENESIS engine oil specifically developed by LLK-Internationa (PJSC LUKOIL wholly owned subsidiary) for modern gasoline and diesel engines of the automotive producer in accordance to one of its newest first fill specifications. The new product provides reliable engine protection and improved fuel efficiency compared to the previous generation.

The companies have been developing their partnership since 2015. High-tech LUKOIL engine oils supplies to the partner's manufacturing plants of gasoline and diesel engines of premium cars in Germany, Poland, China and Russia are the core direction of collaboration of the two companies. In addition, LUKOIL delivers industrial oils for technological equipment as well as gasoline and diesel fuel for the vehicles manufactured at the Russian plant of the automotive concern.
