SEPTEMBER 09, 2022

MODERNIZATION OF ALEXANDER FILATOV LIBRARY COMPLETED IN POKACHI

The reconstruction of the model library named after Alexander Filatov was completed in Pokachi, Yugra region. It is a part of the *Culture* national project, which is included in the public programme *"Yugra Development Map – Yugra's team"*.

The main idea of the project is to make the library a centre of attraction for residents and visitors of the city. The renovated building has rooms for children and adults, an art café, a co-working centre and a conference room. Guests can take part in workshops, trainings, use electronic information resources, read their favourite books in preferred lounge areas, play with their children or just socialise.

The modernisation of the library became a gift to the community of Pokachi for the town's 30th anniversary.
