A KINDERGARTEN FOR 285 CHILDREN OPENED IN THE STAVROPOL TERRITORY AFTER LUKOIL-SPONSORED RECONSTRUCTION

A festive ceremony dedicated to the opening of a day-care center after extensive refurbishment was held today in Budennovsk. The Olimpiyskiy is one of the oldest kindergartens in the region, with spacious facilities designed to accommodate 285 children. The ceremony was attended by Vladmir Nekrasov, First Vice President of LUKOIL, and Vladimir Vladimirov, Governor of the Stavropol Territory.

The reconstruction of the kindergarten was sponsored by LUKOIL via its charity program. In addition to the refurbishment of the four two-story buildings with gallery passages and the installation of new equipment in the kindergarten, the project's scope includes replacement of utility networks and landscaping of the adjacent territories.

Vladimir Nekrasov and Vladimir Vladimirov also visited the Lukomorye sports and recreation complex constructed under the Social Partnership Agreement between LUKOIL and the Government of the Stavropol Territory. Construction will be completed in late December, 2016.
